### Vanderbilt Shares Participated in the Improvement-Local Markets More Promising.

At New York Monday money on call was easy at 11/6/11% per cent.; last loan, 1%; closed offered at 14@1% per cent.

Prime mercantile paper, 3@4 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.87% for demand and \$4.85% for sixty days; posted rates, \$4.86@4.88; commercial bills, \$4.84%. Silver certificates, 64%@65%c; bar silver, 641c: Mexican dollars, 50%c. At London bar

silver closed at 29%d per ounce. Total sales of stocks were 170,752 shares, including: American Tobacco, 6,700; American Sugar, 29,400; Burlington & Quincy, 19,-000; Chicago Gas, 5,300; Louisville & Nashville, 5,000; Manhattan, 11,800; Northwest, 3.200; Northern Pacific preferred, 4,700; Reading, 4,400; St. Paul, 20,100; Tennessee Coal, 3,100; Jersey Central, 6,500.

The New York stock market Monday was characterized by a continuance of the marked activity as compared with business for a number of weeks which was the feature of Friday and Saturday The greater part of the additional business was done in the shares of railways and specialties, the industrials falling off to some extent in the shares of stock sold on the exchange, not an extraordinary figure in relation to the cusnotably active. There were nearly 177,000 tomary proportions of the market a few months ago, but very notably larger than for some time recently. The fact that considerable buying was done through commission houses was an indication of the growth of an outside interest in the market. The most notable feature of the market was the sensational rise of Lake Shore by wide jumps to 172-10 points on the day. The stock subsequently reacted to 167. The maximum figure was registered in the first forty-five minutes of trading, when the bulls were in control of the market and the tendency of all prices was upwards. Calculations of the benefits expected to come to the stock from the probable refunding at low rates of interest of about \$44,000,000 of bonds which mature in the next five years, were

largely responsible for this rise, though

The Vanderbilt stocks all enjoyed an advantage sympathetically from the buoyancy of Lake Shore, New York Central, Illinois Central, Michigan Central, New York Central and St. Louis second preferred, all of concentrated on New Jersey Central and Manhattan with the effect of a decline in the former of 214 and in the latter of 274. The publication of statements of business of the Lehigh & Wilkesbarre for several days past during which no public statement has been made by that company, was the depressing cause of the decline in New Jersey Central, which controls the former road. Manhattan fell off on renewed doubts of the amount of the next dividend and of Strike, 512c; Pepperell, 9-4, 1516c; Pepperell, 10-4, the traffic prospects and cost of betterments 1714c; Androscoggin, 9-4, 16c; Androscoggin, 10-4, of the roads. This drive was effective in turning the course of prices in the whole list The coalers fell in immediate sympathy

Brown Sheetings—Atlantic A. G., Clifton CCC, 5½c;

Constitution, 40-inch, 6½c; Carlisle, 40-inch, 7½c;
Constitution, 40-inch, 6½c; Carlisle, 40-inch, 7½c;
Constitution, 40-inch, 6½c; Carlisle, 40-inch, 7½c; ceding 1%; Delaware & Hudson, %, and Reading 1/2. The grangers were more heavily dealt in than any other group and showed firmness, though they lost generally the early fractional advance of % to %. The St. Paul statement for January, though showing a heavy decrease in earnings, was compared with so favorable a showing year that it was very well received. These stocks suffered from the general reaction brought by the bears. Atl of the well-known high-grade shares were in extensive demand for investment and showed gains ranging from 1 to 5 per cent. on purchases of odd lots. The industrials fluctuated quite widely on manipulation and showed small net losses, Leather preferred was well supported at the decline and railied on the ground of the excellent trade outlook. The declines in the general list were not, as a rule, above a point, except in Tennessee Coal and Iron, 1; Chicago Gas, 1%, and Consolidated Gas, 13 The international shares sagged in sympathy with the general decline, notwithstanding London support, Louisville & Nashville also being affected by the statement for January, which showed a decrease in net earnings of \$128,272. Rallies were frequent, but briefly sustained after the decline, the closing showing fractional gains and losses pretty evenly divided, except for the losses in the specialties, which were very pronounced.

The bond market displayed general firmness, with slight gains in a number of issues. The sales were \$1.751,000. Government bonds continue to tend upward, with the old fours conspicuous in yesterday's transactions. The sales were

\$292,000.

## LOCAL GRAIN AND PRODUCE.

Trade Opened Active, Sugars Making Another Advance-Eggs Weaker. On the wholesale streets and on Commission row trade was quite active for Monday and a feeling prevails that the business of this month is to be largely in excess of February or March of 1896. Stocks are low, money is more plentiful than a year ago and bills better cleaned up on the part of the retail dealers. It will be noticed that sugars make another advance; this has been the case on each Monday for some time past and other staple groceries are very firm. Dry goods houses had a busy day, with prices steady and stronger in most lines. Trade is improving with milliners, and leather dealers report trade better. Produce men are busy; eggs are weak and some of the shippers would not pay over 10c yesterday; poultry rules steady. On Commission row trade shows some signs of improvement, with unchanged prices. Apples have never sold as low through the winter months as this year and still the stocks held are large. The local grain market was rather quiet. Better grades of corn went off 14c, with other grades and other cereals unchanged, track bids Wheat-No. 2 red, 83c; No. 3 red, 79@80c; No. 4 red, 74@78c; wagon wheat, 83c. ## POTATO SCAB.

A New Remedy Which Will Kill the Troublesome Germ.

The experiment station of Purdue University, through Prof. J. C. Arthur, botanist, has issued the appended bulletin: "Potato scab is a source of material loss to those who grow potatoes for the market

and a great blemish in all cases. It is one of the triumphs of practical botany that the cause of this trouble has been traced to a minute germ that feeds on the surface of the potato tuber and to a less extent on other fleshy roots and tubers. It has also been found that a suitable fungicide will kill the germs on the tubers without injuring the growth of the potatoes. Corrosive sublimate meets the requirements and has been advocated by the Purdue experiment station, where its application originated. So effective has it been found, so cheap and easy to apply, that many large growers, who get extra prices for their crops by having high-grade product, have adopted the treatment as a regular thing. "The deadly poisonous nature of corrosive sublimate, however, has kept it from coming into general use. It is, therefore, considered a matter of considerable moment to be able to announce the discovery of a new fungicide for potato scab, one that is thoroughly efficient and not poisonous. The new substance is formalin (sometimes called formaldehyde), a watery solution of a gas, not very expensive and rapidly coming into favor as a general antiseptic, so that it is likely to become still cheaper and | barley. better known. It is sold by the fluid ounce | wheat, 71,000 bu; corn, 93,000 bu; oats, 273,000 bu; and can be obtained at most drug stores. "The method of using the new fungicide is very simple. Eight ounces of the formalin are added to fifteen gations of water, and in this the seed potatoes are soaked for two hours. After taken from the bath they can be cut and planted as usual, either at once or after some time. Formalin is not corrosive, and so can be used in any kind of vessel, and, not being poisonous, there are no particular precautions to be observed. It does, however, make the hands smart if there are any raw spots, and the fumes irritate the eyes and throat. But these are only slight annoyances. Further information about formalin and its use as a fungicide will be given in a bulletin to be issued in a short time. "The potato crop of the State of Indiana reaches annually the large figure of ninety thousand acres and nearly six million bushels, and is sometimes larger. The treatment of the seed tubers as here recommended will materially raise the market value of the crop and prove a source of profit of no mean proportion. Try it.'

## VITAL STATISTICS—MARCH 1.

Deaths.

Walter C. Newcomb, forty years, 107 St. Joe Lillas Vandiver, eighteen years, North Indian-Byron Minks, twenty-seven years, 2 Henry street, laryngitis. Mrs. Pauline Gurley, twenty-nine years, 20 bama street, encephalitis Timothy Monaghan, fifty-eight years, 123 Shelby street, biliary calculi Agnes Smith, twenty-nine years, 84 North Ala bama street, eucephalitis Mary J. Pointer, sixty-eight years, 180 Vermont street, epithelloma uteri. Elizabeth McClain, sixty-three years, 136 Eliza-Everett Miller, twelve years, 519 Eugene street, heart failure. Margaret Gale, five years, 413 South New Jersev street, spasms.

Births.

Annie and Dan McAlister, 433 South West Kate and James Cavanaugh, 23 Shelby street Louisa and John A. Roessler, 24 Eureka avenue, girl. Carrie and John H. Kohlman, 359 East Market

street, girl. Marriage Licenses. Everett S. Waggener and Barbara Buennagle, George A. Green and Eilen Moran. Aaron Griffin and Nellie Mitchell. Oscar Loy and Rubie Ogle Charles S. Bronson and Belle M. Montague. Max Rosenberg and Jessie Crawford.

Building Permits.

Alexander Aberritt, frame house, Asbury street, Jonas T. Johnson, remodel, 467 North Delaware street, \$2,500 Fred Buny, repairs, 73 South Summit street.

Deny Albert Lieber's Claim. keepers made a partial canvass of the merchants of South Meridian street yesterday to learn the truth or falsity of the report that all but two of the merchants had signed a petition condemning the so-called "spy" system of prosecuting saloon keepers.

They visited thirteen merchants and found [20%c; May, 21%w21%c; July, 25%c. Oats dull, with fairly heavy receipts, but no speculation, Spot steady; No. 2, cash, 16%c bid; May, 17%c bid. Rye firm at 32c on track. Barley dull; malting, 28%35c. Flaxseed higher at 75c. Prime timothy seed, \$2.60@2.65. Corn meal, \$1.35. Bran firm, with but little to be had; sacked, east track, worth nominally 50c. Hay dull, steady unchanged.

## ADVANCED 7-8C

SMALLEST WEEKLY WORLD'S SHIP-MENT REPORTED IN YEARS.

Lack of Foreign Demand Was a Drag on the Grain Market-Provisions Made Slight Gains.

CHICAGO, March 1 .- Wheat was firm and higher, but the advance was only 3/67%c. notwithstanding the smallest weekly world's shipments for years, the almost total lack of foreign demand acting as a drag on the market. Other markets were dull but firm, corn advancing 1463 c. oats 4e and provisions 21/265c.

The opening in wheat was rather unsatisfactory. Trading at no time during the session was heavy, and at the opening was very light and spiritless, the reasons for the cautiousness of traders being felt throughout the day. Traders could not reconcile the absolute indifference of foreign markets, as shown in the absence of any demand, to the extraordinary lightness of the world's shipments and other figures bearing on the world's supply of breadstuffs. The effect was especially apparent during the first half hour, the short selling of the cautious ones depressing the price %e in that time. May opened at from 74%c to 74%c, compared with Saturday's powers. From the latter price it began its first feeble efforts at climbing, but gained vigor as it progressed and was bringing 74%c about an hour and a half from the start. The market had no end of statistical support. Liverpool was 1/2 % d higher. That market did not hold all its opening advance, however. Chicago receipts were 25 cars, against 106 a year ago. Minneapolis and Duluth reported 360 carloads, compared with 509 last year. Later in the day the visible supply statement was completed, showing a decrease of 1.418,000 bushels for the week, compared with 922,000 bushels for the corresponding week of 1896, making the total in sight now 43,797,-000 bushels, against 64,089,000 bushels at That was the occas of the first rise to 74%c. The quantity of | weak; prices were steady early, but later dewheat and flour on ocean passage decrease: 1,760,000 bushels, compared with an increase of 1,120,000 bushels on the similar week last year, and the English visible decreased 266,000 bushels. The most surprising figures. however, were those of the exports from the surplus producing countries to Europe. It will be recollected that American shipments from both coasts last week were 1,372,000 bushels, and as the total from all countries was only 2,636,000 bushels, it is seen that this country supplied more than one-half of the whole. Russia's quota was only \$24,000 bushels. That imparted a little additional vigor to the market on its being announced, the price of May reaching 75/2c. A slight reaction followed the posting of the closing cables, showing some decline, the market closing strong, however, at 74% @74%c.

Corn was slow, but held quite steady, with a firm undertone. The better feeling in wheat was the chief factor, although both the visible supply and the amount on passage showed decreases. Clearances were 1,047,000 bushels. May opened a shade higher at 24c, sold to 241/4/2 24%c, and closed at 24%c. Oats were firm but quiet, and nothing of any special interest developed. Shorts bought early and started the improvement, while wheat contributed, and later a feature of the market was the relative firmness of July, which is 1c over May, due to the very large stocks and the certainty of better carrying charges. The visible supply increased 332,000 bushels. May opened a shade higher at 17c, sold to 17%c and closed at 17% a17% c.

Firmness was the general tone of the provision market, but the transactions were not heavy in the pit. There was a clear disposition to buy rather than to sell, the market being helped by higher yard prices, and also perhaps by the announcement that the French tariff will not be advanced. At the close May pork was 21/2c higher at \$8.121/2; May lard, 5c higher at \$4.121/2, and May ribs, 21/2c higher at \$4.221/2. Estimated receipts for Tuesday-Wheat.

of cattle were steady, while for the few offerings that graded as choice sellers succeeded in getting an advance of about 10c per 100 pounds. Sales were on a basis of \$3.50@3.75 for the cheapest dressed beef steers up to \$4.50 to for good to choice shipping and export lots, with the bulk of the transactions at \$464.75, and prime to extra cattle were scarce and nostly nominal at \$5.100 5.35. The stocker and feeder trade was active. with sales chiefly at \$3.50@4.10. Bulls were low in price, experters again letting them alone, but cows and heifers were in good demand once more by butchers and canners at firm prices. In hogs buyers started in early and an advance of 5c per 100 lbs was generally paid. Sales were made of common to prime hogs at \$3.35@3.80, singeing pigs going at the top prices. Hogs sold largely at \$3.60@3.70. There was a larger per centage of light-weights than usual. In sheep prices were stronger and the best sheep were 5@10c per 100 pounds higher. Common to the best sheep sold at \$2.50@4.20, and Western fed sheep brought \$3.50@4.15, very little being done below \$3.60. Lambs sold at \$3.50@5.29, largely at \$4.40@5. Occasional Snow or Rain, Followed by a Drop in Temperature. Forecast for Indianapolis and vicinity for the twenty-four hours ending 11 p. m. March 2.-Cloudy weather; occasional snow or rain, followed by colder, partly cloudy

weather during Tuesday. General Conditions Yesterday.-The low barometric areas central north from the lower lakes and over Mexico are joined by a barometric trough. High barometric areas are central over North Dakota and off the central Atlantic coast. The warmer current in front of the low barometric areas caused the temperature to rise from the gulf northward to the lakes, and the cold current in the rear caused the temperature CHICAGO, March 1.-Prices for the general run to fall west of the Mississippi. Cloudy weather prevails and rain fell in the central Ohio valley. Snow fell from Colorado northward and near Lake Superior.

FORECAST FOR THREE STATES. WASHINGTON, March 1 .- For Ohio .-Threatening weather, with light rain or snow; colder; southerly winds, shifting to For Indiana and Illinois,-Light snow or rain, followed by clearing in southern portion; fair in northern portion; colder; southerly winds, shifting to northerly.
